

My name is Ed Cameron. I am 45 years old, and I have lived in American Fork for 10 years. I was raised in Salt Lake City and served in the US Army, and I now own a small business in American Fork. My lovely wife, Liz, and I have six daughters and two sons.

I believe there needs to be some fresh thinking in American Fork City government. We need a new direction, one that listens to the hard working people of American Fork and not just a few privileged citizens. As Mayor, I would work to restore the voice of the people and ensure balance to make the best decisions for our City.

I am concerned with the quality and cost of our services from the City. Though we have many service problems, American Fork has the 5<sup>th</sup> highest tax rate in Utah. We are paying more than other cities for services, yet we are receiving much less. As Mayor, I would restore fiscal responsibility and work to better meet the needs of residents.

I would love to hear your concerns and ideas. Contact me at [cameronliz1@aol.com](mailto:cameronliz1@aol.com). Together, we can chart a new direction.
