

PLANNED WATER OUTAGE NOTIFICATION

The North Utah County Boulevard Project Team and the American Fork Public Works Department will be shutting off water to customers in the areas listed below to relocate some utilities in conjunction with the North Utah County Boulevard Project on **Wednesday, February 1, 2012 between 1:00 a.m. to approximately 6:00 a.m.**

The affected areas are bounded by 700 North to 1800 North and 1300 East to 1000 West. Please refer to the map on the reverse for a more specific view of the affected area.

Please plan accordingly and store enough water for your family's needs during this outage.

When water is restored, customers may experience air in the lines or discolored water. This may be cleared by running the cold water faucet until all air and any cloudiness has dissipated. We regret any inconvenience this may cause, but it is necessary to relocate utilities in preparation for installing the new North Utah County Boulevard Road. If you have any questions, contact the American Fork Public Works Department at 801-763-3060.

We appreciate your cooperation.
Thank You!

The affected area of the planned water outage has been identified as falling within the red boundaries indicated on the map below. However, the outage may extend slightly beyond these parameters. Residents are encouraged to exercise their best judgment in preparing for this outage.
