PRESSURIZED IRRIGATION SYSTEM CONNECTIONS AGREEMENT

This Connection agreement is entered into by and between The City of American Fork, a municipal corporation, herein after referred to as “City” and _____, herein after referred to as “Water-user.”

1. Commitment for Service: The City hereby commits to deliver and make available to the Water-user untreated water from the system owned and operated by the City at the point identified as the deliver point. The water shall be for utilization by the Water-user for non-potable purpose upon, and only upon, the property owned or resided in by the Water-user.
2. Water Quality: Water-user hereby acknowledges that the water being delivered through the System has not had any treatment or chemical modification with the intent of using the water for potable or consumptive use. Water-user hereby acknowledges that it is the obligation and responsibility of the Water-user to ensure that the water herein delivered is not used for, or in any way intended to be used for consumptive or potable use by the Water-user.
3. Prevention of Waste: Water-user hereby covenants that they shall not waste water or allow water to be wasted by improperly maintained facilities, (valves, joints or pipes.) Water-user hereby agrees not to cause waste of water by allowing unreasonable water flow into neighboring yards, property or streets. Flood irrigation from pressurized irrigation lines is prohibited.
4. Maintenance Obligation: Water-user shall keep their facilities related to in delivering the water onto their own property in good repair and protected from the elements at their own expense. The user shall not excavate or otherwise attempt to enter upon the city streets, parking strips, sidewalks, or other public right-of-way for the purpose of laying, removing or repairing any service pipe or apparatus related to the System.
5. Maintenance Access: The City shall at all reasonable times have access to the property supplied with water from the System for the purpose of examining the facilities and apparatus to ascertain the water use, quantity, manner of use, or any related information.
6. Water Rates: Water-user hereby acknowledges that the rate schedule is subject to adjustment, modification and change by the City in accordance with its policies to ensure the integrity, maintenance, operation and replacement of the System.

American Fork City Public Works Office, 276 East 200 North, American Fork
Please call the City at 763-3060 to schedule an inspection

7. Unauthorized Use: Water-user hereby agrees and understands that he is prohibited from making the water delivered to the Water-user available to any other person, and other premises or any other unauthorized uses beyond the non-potable uses on the Water-users property.

8. Termination of Service: Water-user hereby agrees and understands that failure to pay for the water use charges as specified in the rate schedule subjects the Water-user to termination of service by the City. Further, any attempt to utilize the system after such termination shall be deemed to be a violation of American Fork City ordinance and only upon payment in full of all unpaid charges shall the water service be resumed.

9. Restriction on Use: Water-user hereby agrees and understands that the City has the authority to determine the extent of use and the quantity of use and the scheduling of use of the System and in the event it is determined that the use needs to be scheduled or restricted or limited in order to meet the demands from all water users due to the demands on the System due to drought, mechanical failure or other reasons, Water-user hereby agrees and consents to abide by such restrictions and limitations.

10. Use of Culinary Water: Water-user hereby agrees to restrict and limit all use of culinary or potable water to purposes within the household, and such culinary water shall not be utilized for outside watering of lawns, plants, or other outside uses.

11. Cross Connection: It shall be unlawful for any person to connect any part of the Secondary Irrigation System to any part of the culinary water system so as to create a potential cross-connection whereby irrigation water could be introduced into any system that provides culinary water.
